

**WORLD CLASS LUBRICANTS**

## INDY BACK LAPPING PASTE

## TECHNICAL DATA SHEET

### Application

- ❖ Especially designed with a 120-grit size, which can be used for lapping, to seat new valves, sharpen blades, remove score marks, and various forms of tool making.
- ❖ Suitable for removal of soils, residues and stains from skin, and may be washed off completely using either hot or cold water.
- ❖ Apply a thin layer of Professional BL Grinding Paste to the metal surface to be treated.
- ❖ Rub or grind the paste onto the surface, which will cause the surface to abrade.
- ❖ Once the desired surface smoothness has been achieved, wipe excess paste away.

### Features & benefits

- ❖ Easy to use and provides exceptional resurfacing of metal surfaces.
- ❖ The silicate base allows the product to retain the texture and lubrication properties, and produces a smooth flat surface, but not a polished one.
- ❖ The formulation leaves a rust-preventing film on lapped surfaces

### Technical Characteristics

Appearance: Dark grey metallic paste  
Grit Size: 120

### Available Product Pack Sizes:

Part No.	Pack Size
C-0302	20 kg
