TECHNICAL DATA SHEET

PRODUCT

INDY GREASE WB Automotive Wheel Bearing Grease

DESCRIPTION

INDY Grease WB is a high quality multipurpose lithium grease made from solvent refined mineral oils and incorporating a multifunctional extreme pressure additive as well as corrosion and oxidation inhibitors. It is resistant to water and high-pressure steam and suitable for operating temperatures between -30°C and 130°C.

APPLICATION

INDY Grease WB is particularly effective in automotive wheel bearings subjected to high temperatures and load caused by braking from high speed. It has good water resistant properties and protects against rust under all operating conditions.

TECHNICAL CHARACTERISTICS

Consistency NLGI		3
Soap Type		Lithium
Dropping Point	°C	180
Timken OK Load	kg	27
Worked Penetration @ 25°C	mm	220 - 250
Appearance	visual	Brown
Viscosity @ 40°C	cSt	280

PACK SIZES

50 kg / 15 kg / 4.5kg / 20x500g

Revision 4: August 2017
