

TECHNICAL DATA SHEET

PRODUCT **INDY MULTISURFACE CLEANER**

DESCRIPTION

Indy Multisurface Cleaner is water-based, non-flammable and non-toxic surface cleaner that can be used to clean up a variety of compounds, including oils, greases, petrol, diesel and jet fuels. Indy Multisurface Cleaner is based on all-natural products and is 100% biodegradable, and is compatible with all oil-water cleaning systems. Indy Multisurface Cleaner is odourless and non-corrosive, and prevents any slip and slide accidents by leaving surfaces dry and completely oil free.

APPLICATION

Indy Multisurface Cleaner is recommended for use at either a 1:10 dilution (product: water), for cleanup of light spills and 1:1 for more severe contamination. Indy Multisurface Cleaner can be applied both by spraying over the surface of the contaminated area, and scrubbed lightly to promote agitation of the contaminated area. The resultant residue can then be wiped or mopped off and left to air dry. Any leftover or unused mixture can be stored and is reusable for a period of up to 12 months.

TECHNICAL CHARACTERISTICS

Appearance		Clear – pale amber liquid
pH		Neutral (ca 7.00)
Density	kg.m ⁻³	1020 (typical)
Flash point	°C	non-flash
Stability	months	18 (at ambient)

PACK SIZES

210L, 20L

Revision 1: November 2017

Durban Head Office: + 27 31 910 3111
+ 27 60 572 8088

Pietermaritzburg: + 27 33 392 9300
