## 4. FIRST AID MEASURES

Splashes into the eyes may cause irritation.

Inhalation

Remove to fresh air.

Ingestion

Do not induce vomiting. Drink copious quantities of milk/water.

Obtain medical attention immediately.

Skin Contact

Wash skin with soap and water. Remove contaminated clothing.

If irritation persists, obtain medical attention.

Eye Contact

Flush eyes with clean water. Get medical attention if irritation develops.

## 5. FIRE -FIGHTING MEASURES

The product is non-flammable.

## 6. ACCIDENTAL RELEASE MEASURES

Personal precautions

Do not breathe vapour or mists. Avoid contact with eyes.

Environmental precautions

Large spillages should be prevented from entering into drains, ditches or rivers. Use appropriate containment to avoid environmental contamination. Inform local authorities if this cannot be prevented. Use sand, earth or other absorbing material to contain spills.

Clean-up methods

Liquid can be contained by making a barrier with sand, earth or other containment material.

Reclaim liquid directly, or in an absorbent. Small spills can be washed away with water.

## 7. HANDLING AND STORAGE

Keep container closed. Store in cool place. Prevent spillages and accidental eye contact. Use in well ventilated area.

## 8. EXPOSURE CONTROLS & PERSONAL PROTECTION

Occupational Exposure

The control measures appropriate for a particular worksite depends on how this material is used and the extent of exposure. The best protection is to use the product in well-ventilated areas.

Personal Protection

If engineering controls and work practices are not effective in controlling this material, then wear suitable personal protection equipment, including safety goggles or face shield, boots, impervious gloves, overalls and breathing apparatus.

## 9. PHYSICAL AND CHEMICAL PROPERTIES

Physical state and appearance

Creamy white liquid at ambient temperature.

Density at 20°C

1.02 kg/lit

Colour

Creamy white

Odour

Ammonia

pH

10-11

## 10. STABILITY AND REACTIVITY

Stability	The product is stable
Materials to avoid	None
Conditions to avoid	None
Hazardous Decomposition Products	None known

## 11. TOXICOLOGICAL INFORMATION

The product is not regarded as toxic.	
Acute effects	Ingestion can lead to vomiting.
Carcinogenicity	Not carcinogenic.
Mutagenicity	Components are not known to be associated with mutagenetic effects.

## 12. ECOLOGICAL INFORMATION

The product is not regarded eco-toxicological. It may affect aquatic life if spilled in contaminated in large quantities.

## 13. DISPOSAL CONSIDERATIONS

No special requirements. Small quantities can be washed away with water.

## 14. TRANSPORTATION INFORMATION

No restrictions in accordance with Hazchem regulations.

## 15. REGULATORY INFORMATION

None of the components are classified in terms of RSA regulation. Ammonia is used in diluted form at low concentration.

## 16. OTHER INFORMATION

Validated by INDY OIL SA (Pty) Ltd on 22/06/2006  
Version 1  
This document does not replace any previous validations.
