

## TECHNICAL DATA SHEET

### PRODUCT

**INDY LIQUIWASH**  
Liquid detergent

### DESCRIPTION

INDY Liquiwash is a chlorinated liquid detergent for use in industrial automatic ware washing and glass washing machines. INDY Liquiwash is suitable for use in soft-to-medium water conditions and is designed to remove fatty and proteineaceous soiling and is particularly effective against tea- and coffee staining.

### APPLICATION

Use only through Indy Oil SA (Pty) Ltd dosing equipment.

INDY Liquiwash is suitable for use on steel, stainless steel, copper, plastics, rubber and ceramics. It should be dosed at 2-3 g/litre depending on soiling and should never be manually dosed.

INDY Liquiwash should not be used on aluminum, brass and galvanized surfaces.

### Pack Size

25 lt
