PRODUCT

INDY CRETE CLEAN
Brick Masonary and Concrete Cleaner

DESCRIPTION

INDY Crete Clean is a carefully formulated and tested product that has proved beneficial for the building industry, painting industry and the do-it-yourself homeowner. INDY Crete Clean removes trailings, water scale, and excess cement on brickwork, paving and tiles. Indy Crete Clean is inhibited, therefore it may be used on window frames (aluminum or steel), swimming pool equipment, and any other surface where unwanted cement tracings or spills are found. Zinc and stainless steel components are however excluded.

APPLICATION

Application of INDY Crete Clean can be by dip, spray, or brush, depending on the area. INDY Crete Clean can be used neat or diluted 1:3 to 1:20 parts of water, depending upon the age, amount, and condition of the unwanted material.

Application contact time should be allowed, after which the surface should be well rinsed with water.

PACK SIZES

25 lt
