

PRODUCT

INDY 4T MOTO

Synthetic 4-Stroke Oil

DESCRIPTION

INDY 4T Moto is an ester-based synthetic 4-stroke motorcycle oil. INDY 4T Moto combines synthetic base oil together with a unique combination of additives to provide superior performance in 4-stroke engines. The high detergency of INDY 4T Moto provides excellent sludge and varnish control, allowing for improved overall engine cleanliness. INDY 4T Moto is formulated to a lower viscosity than conventional engine oils, allowing for improved flow under cold-start up conditions, and ensuring better wear protection, fuel efficiency and low-temperature performance.

APPLICATION

INDY 4T Moto is recommended for all modern high performance air and water-cooled four-stroke motorcycle engines, including ones where the engine oil is used to also lubricate transmissions and wet clutches.

TECHNICAL CHARACTERISTICS

API SL	JASO MA (T903:2006)	JASO MA2
SAE Grade	10W40	
Density at 20°C	kg.m ⁻³	870 (typical)
Viscosity at 40°C	cSt	103.0 (typical)
Viscosity at 100°C	cSt	14.3 (typical)
Viscosity Index		165
Sulphated ash	%	0.85 (max)
Evaporative loss	%	15.0 (max)
Phosphorus content	%	0.09 (max)
Dynamic Friction Characteristic Index		1.90 (typical)
Static Friction Characteristic Index		1.90 (typical)
Foam Tendency (Sequence I/II/III)		10/40/8 (typical)
Foam Stability (Sequence I/II/III)		0/0/0 (typical)

PACK SIZES

12*1L
