

## TECHNICAL DATA SHEET

### PRODUCT

### INDY ENGINE FLUSH Engine Flush for Petrol and Diesel Engines

### DESCRIPTION

INDY Engine Flush is an effective cleaning agent for use in both petrol and diesel engines, and has been formulated to provide a safe cleaning action as well as additional lubricating properties. INDY Engine Flush contains detergents and dispersants that allow for sludge and deposit build-up removal, whilst still providing additional lubricating properties to the already exhausted oil. INDY Engine Flush is compatible with both mineral and synthetic oils, and when used correctly, imparts the following benefits:

- Restores fuel economy by removing sludge, dirt and deposits
- Increases operating efficiency
- Loosens sticky valves and rings, minimizing engine blow-by
- Prolongs equipment life
- Prepares engines for addition of new oil

### APPLICATION

INDY Engine Flush is intended for use in diesel and petrol engines, as a cleaning agent for the removal of in-borne dirt, deposit build-up and sludge formation. INDY Engine Flush should be added directly to the oil in the crankcase sump, and allowed to circulate for 15-20 minutes before being drained out with the used oil. INDY Engine Flush can be disposed off together with the used oil. It is recommended that the system be completely drained before fitting of the new oil filter and new oil.

### STORAGE & HANDLING

Keep in a cool, dry and well ventilated place and in a closed container.

Keep away from oxidizing agents, heat and open flames.

Avoid prolonged contact with the skin.

Avoid contact with the eyes.

Refer to the relevant material safety data sheet (MSDS) for additional information on handling and storage.

### PACK SIZES

12\*375 mL

Revision 1: 05 August 2015

Durban Head Office: + 27 31 910 3111  
+ 27 60 572 8088

Pietermaritzburg: + 27 33 392 9300
