

TECHNICAL DATA SHEET

PRODUCT

INDY MR 303
Neat Mould Release Fluid

DESCRIPTION

INDY MR 303 is a general mould release fluid that is suitable for use in a wide variety of applications, including the release of concrete used in moulds for the construction of formwork and shuttering. The low viscosity of INDY MR 303 allows for it to be suitable for both brush and spray-on applications.

APPLICATION

INDY MR 303 must be applied as a concentrate to the relevant surface either by brush or spray application.

TECHNICAL CHARACTERISTICS

| | | | |
|-------------------|--------------------|------|-----------|
| Density at 20°C | kg.m ⁻³ | 860 | (typical) |
| Viscosity at 40°C | cSt | 9.00 | (typical) |

PACK SIZES

210L, 20L
