

# TECHNICAL DATA SHEET

## PRODUCT

**INDY GEAR 320F**  
Part-Synthetic Food Grade Gearbox Oil

## DESCRIPTION

INDY Gear 320F is an industrial gear oil formulated for use where incidental food contact might occur. INDY Gear 320F is designed for use in all industrial gear sets with circulating and splash lubrication, and contains an additive blend that provides excellent extreme pressure and anti-wear performance characteristics under a wide range of operating conditions. INDY Gear 320F meets the requirements of NSF H1 for incidental food contact lubricants.

## APPLICATION

INDY Gear 320F is recommended for use in all industrial gearbox applications, including gearboxes under heavy or shock loads where boundary lubrication may exist. Gear geometry and operating conditions will depend on the viscosity of the product required.

## TECHNICAL CHARACTERISTICS

<b>ISO Grade</b>		<b>320</b>	
Density @ 20°C	(kg.m <sup>-3</sup> )	900	(typical)
Viscosity @ 40°C	(cSt)	300	(typical)
Viscosity @ 100°C	(cSt)	33.8	(typical)
Viscosity Index		120	(min)

## PACK SIZES

20 L
