

PRODUCT

INDY GREASE EP 00 Semi Fluid Grease

DESCRIPTION

INDY Grease EP 00 is a high quality, multipurpose lithium-based grease made from solvent refined mineral oils and incorporating a multifunctional extreme pressure additive as well as corrosion and oxidation inhibitors. It is resistant to water and high-temperature steam and suitable for operating temperatures between -20°C and 130°C.

APPLICATION

INDY Grease EP 00 is designed for use in highly loaded plain and roller bearings as well as for shock loading conditions. It is suitable for use in the full range of bearing speeds encountered in electric motors, machine and woodworking tools, production equipment, textile and paper-making industry, generators and all types of vehicles. The smooth consistency makes it ideal for use in centralized lubrication systems and it can be used on ferrous and non-ferrous metals. INDY Grease EP 00 is recommended for all normal applications at ambient temperatures and where conditions are more severe with higher temperatures.

TECHNICAL CHARACTERISTICS

Consistency NLGI	00
Dropping Point °C	180
Viscosity at 40°C (cSt)	170
Worked Penetration @ 25°C	415
Colour (Visual)	Tan/ semi-translucent

PACK SIZES

15 kg / 5 kg
