

TECHNICAL DATA SHEET

PRODUCT

INDY CUT
Neat extreme pressure cutting oils

DESCRIPTION

INDY Cut (F1, F3 and F6) range is a range of concentrated metalworking fluids formulated from mineral oils and containing extreme pressure additives. INDY Cut is recommended for use as a neat oil for the machining of both ferrous and non-ferrous metals.

APPLICATION

INDY Cut range is suitable for the machining of ferrous and non-ferrous metals in applications requiring a light to medium viscosity fluid.

TECHNICAL CHARACTERISTICS

Product		F1	F3	F6	
Appearance		Dark Brown	Dark Brown	Dark Brown	
Density at 20°C	kg.m ⁻³	870	880	890	(typical)
Viscosity at 40°C	cSt	22	33	60	(typical)
Pour Point	°C	-7	-12	-14	
Flash Point	°C	202	196	162	

PACK SIZES

210L, 20L
