

TECHNICAL DATA SHEET

PRODUCT

INDY SYNCUT 500
Neat Cutting Oil

DESCRIPTION

INDY Syncut 500 is a low viscosity neat oil with a combined additive system including active sulphur to cater for cutting operations over a wide range of materials.

APPLICATION

INDY Syncut 500 is suitable for deep hole drilling, gear cutting and heavy duty operations on all ferrous metals including stainless steels. This product will stain cuprous metals. Also not suitable for machining aluminum.

TECHNICAL CHARACTERISTICS

Appearance		Amber	
Density at 20°C	kg.m ⁻³	880	(typical)
Viscosity at 40°C	cSt	14	(typical)

PACK SIZES

210L, 20L
