

## PRODUCT

### INDY FORM CSL

High Viscosity Deep Drawing Lubricant

## DESCRIPTION

INDY Form CSL is a viscous, mineral oil enhanced with extreme pressure (EP) additives. These specially selected additives offer superior performance under boundary lubrication conditions.

## APPLICATION

INDY Form CSL is designed for deep drawing of steel components, and bar drawing. It is also suitable for blanking, stamping, tube bending and slow tapping operations. It is suitable for use on yellow metals.

## TECHNICAL CHARACTERISTICS

Appearance	Clear brown
Density at 20°C	0.90 kg/l
Viscosity at 40°C	515 cSt
Flash point	>230°C

## PACK SIZES

210 lt

25 lt
