

PRODUCT

INDY SYNCUT 400
Neat Cutting Oil

DESCRIPTION

INDY Syncut 400 is a neat cutting oil based on hydro-isomerised mineral oil and fortified with a chlorinated extreme pressure additive. INDY Syncut 400 has a clear, water white appearance.

APPLICATION

For machining aluminium and its alloys. Turning, milling, drilling, and especially honing cast iron and certain steels. High speed routing of non-ferrous alloys and also where a lubricant is needed in cutting magnesium alloys.

TECHNICAL CHARACTERISTICS

Appearance	Clear water white oil
Density at 20°C	0.834 kg/l
Viscosity at 40°C	5 cSt
Flash Point	162°C

PACK SIZES

210 lt
25 lt
