

## PRODUCT

**INDY FORM EP 165**  
**Drawing & Forming Oil**

## DESCRIPTION

INDY Form EP 165 is a heavy duty forming oil. It is blended from solvent refined paraffinic base oils and contains high performance extreme pressure and lubricity additives, providing high resistance to temperature, pressure and wear to enhance tool and die life.

## APPLICATION

INDY Form EP 165 is recommended for use in stainless steel and alloy steel tube forming and cold pilgering operations. It is also suitable as a deep drawing oil where extreme performance is required.

## TECHNICAL CHARACTERISTICS

Appearance	Clear brown
Density at 20°C	0.91 kg/l
Viscosity at 40°C	135-165cSt
Flash point	220 °C

## PACK SIZES

210 lt  
25 lt
