

PRODUCT

INDY CHAIN SAW ENGINE OIL

Two Stroke Oil for Mainline Power Tools

DESCRIPTION

INDY Chain Saw Engine Oil is a low ash, 2 stroke oil for mainline power tools. INDY Chain Saw Engine Oil is a self-mixing oil containing a diluent.

APPLICATION

INDY Chain Saw Engine Oil is recommended for the lubrication of all 2 stroke, air cooled petrol engines, eg. Lawn mowers, edge cutters, chain saws, etc. Manufacturers recommendations should be followed to ensure the correct fuel/oil mixture, but a general guide is a mixture of 1 part oil to 50 parts fuel. *NB. INDY Chain Saw Engine Oil should not be used in outboard engines. INDY Nautica Outboard Oil is the appropriate grade for this application.*

TECHNICAL CHARACTERISTICS

API TB	JASO FB	
Colour		Blue
Viscosity at 100°C	(cSt)	10.5 (without diluent)
Sulphated Ash	(%mass)	0.06

PACK SIZES

210 lt
25 lt
