

# INDY

## TECHNICAL DATA SHEET

### ELITE 20W50

#### Application

- ❖ Indy Elite 20W50 is a high-performance engine oil specially formulated with advanced additive technology compatible with both naturally aspirated and turbocharged engines.
- ❖ This premium oil is suitable for use in a variety of petrol and diesel engines.

#### Features & benefits

##### ❖ Refined Engine Cleanliness

Formulated with advanced additives incorporating anti-wear, detergency and corrosion inhibition functionalities to ensure that maximum protection against sludging and provide excellent engine cleanliness.

##### ❖ Advanced Engine Protection

Formulated to provide excellent stay-in-grade viscometrics even when operating under severe conditions, provides excellent corrosion protection even with high sulphur levels, and has a high level of wear protection and resistance to bore polishing.

#### Suitable for use for the following specifications:

- ✓ **DIESEL** – API CF-4
- ✓ **PETROL** – API SL, SJ, SH, SG

#### Physical Characteristics:

Properties		20W50 SL/CF-4
Density @20°C	kg.m-3	900
Viscosity @40°C	(cSt)	170
Viscosity @100°C	(cSt)	17.5
Viscosity Index		138

#### Available Product Pack Sizes:

Part No.	Pack Size
OIL-00150	210L
OIL-00151	20L
OIL-00152	4*5L
OIL-00154	12*1L
