

## TECHNICAL DATA SHEET

### INDY SUPER SYNTETIC 10W40

#### Application

- ❖ Fully synthetic ultra-high performance, long life petrol and diesel engine oils formulated using superior additive technology.
- ❖ Suitable for all petrol and diesel engines running under severe operating conditions.
- ❖ Recommended to be used in a wide range of heavy-duty applications and operating environments found in the trucking, mining, construction, marine and agriculture industries.
- ❖ Product developed for extended drain intervals.

#### Features

##### ❖ Refined Engine Cleanliness

Specially selected additive technology used to provide extra protection under severe operating conditions, prevents sludging and has superior active cleaning agents.

##### ❖ Advanced Engine Protection

Provides excellent oxidation stability, corrosion control and minimises high temperature deposits.

#### Benefits

- ✓ Exceeds Euro 1-5 requirements
- ✓ Excellent stay-in-grade viscometrics provide immediate protection both at start up and operating temperatures
- ✓ Low volatility provides controlled oil consumption and reduced emissions
- ✓ High V.I. base oils and advanced additive technology provides reduced wear and extended engine life
- ✓ Superior soot handling capabilities provide efficient and cleaner operating engines

#### Suitable for use for the following specifications:

- ✓ API: CI-4
- ✓ Daimler MB 228.5
- ✓ MTU DDC Type 3
- ✓ ACEA E4/E7-08
- ✓ Cummins CES 20077/78
- ✓ MACK EO-M Plus
- ✓ SCANIA LDF-2
- ✓ RENAULT Truck RXD / RLD-2
- ✓ MAN M3277(formal approval)
- ✓ VOLVO VDS-3
- ✓ DEUTZ DQC III-05

#### Physical Characteristics:

Properties	SAE 10W40
Density @20°C	kg.m <sup>-3</sup>
Viscosity @40°C	(cSt)
Viscosity @100°C	(cSt)
Viscosity Index	-
	850
	105.5
	15.5
	149

#### Available Product Pack Sizes:

Part No.	Pack Size
OIL-00126	1000L
OIL-00127	210L
OIL-00128	20L
