

INDY

TECHNICAL DATA SHEET

INDY WHITE OIL 22

Application

- ❖ A range of highly refined white mineral oils that contain both saturated aliphatic and alicyclic, non-polar hydrocarbons.
- ❖ Suitable for use in industrial and packaging applications including preparation of plasticizers.

Features & benefits

- ❖ **Advanced Additive Technology**
Refined to be chemically and biologically stable, and are colourless, odourless and tasteless.

Physical Characteristics:

Properties		22
Density @20°C	kg.m ⁻³	835
Appearance	Visual	Clear
Viscosity @40°C	(cSt)	22
Pour point		-9

Available Product Pack Sizes:

Part No.	Pack Size
OIL-02292	1000L
OIL-02293	210L
OIL-02294	20L
