TECHNICAL DATA SHEET

INDY NAUTICA OUTBOARD OIL

Application

- ❖ A superior performance oil, formulated to provide excellent lubrication in all two-stroke and premix outboard engines
- ❖ Can be used in all water-cooled and oil injected two stroke marine engines.
- ❖ Suitable for use with both leaded and unleaded fuels and may be used at fuel/oil mixtures of up to 100:1 subject to manufacturer's recommendation.

Features & benefits

❖ Refined Engine Cleanliness

Based on specially designed ashless additive technology and pre-diluted with a high flash point solvent.

Suitable for use for the following specifications:

- ✓ API TD
- ✓ NMMA: Recertified TC-W3

Physical Characteristics:

Properties		
Ash content	%	<0.1
Density @20 °C	Kg.m ⁻³	870
Viscosity @40 °C (with solvent)	cSt	210-260
Viscosity @100 °C (undiluted)	cSt	18.1-24.7

Available Product Pack Sizes:

Part No.	Pack Size
OIL-00381	20L
OIL-00382	4*5L
OIL-00385	12*1L
