

SYN GEAR

Product description

Indy Syn Gear is a range of extreme pressure synthetic industrial gearbox oils designed for use in all industrial gear sets with circulating and splash lubrication. Indy Syn Gear is formulated with an additive blend to impart excellent antiwear and anti-foam properties even under extreme operating conditions. The combination of additives and synthetic oils allows for Indy Syn Gear to reduce gear wear, extend the gearbox life as well improve overall gearbox efficiency.

Application

- A range of extreme pressure synthetic industrial gearbox oils designed for use in all industrial gear sets with circulating and splash lubrication.
- Provides great protection for gears and bearings even under shock loads.
- Recommended for use in all industrial gearbox applications, including gearboxes under heavy or shock loads where boundary lubrication may exist.
- Gear geometry and operating conditions will depend on the viscosity of the product required.

Features & benefits

- **Gear Wear Protection**

Formulated with an additive blend to impart excellent antiwear and anti-foam properties even under extreme operating conditions.

Reduced gear wear, extend the gearbox life as well improve overall gearbox efficiency.

Suitable for use in the following applications:

- ✓ AIST 224
- ✓ David Brown S1.53.101 €
- ✓ AGMA 9005-E02

Physical Characteristics:

Properties		150	220	320
Density @20°C	$kg.m^{-3}$	900	900	900
Viscosity @40°C	(cSt)	147	218	302
Viscosity @100°C	(cSt)	18.4	25.8	33.8
Viscosity Index		148	153	155

Available Product Pack Sizes:

Pack Size	Part No. 150	220	320
210L	OIL-01216	OIL-01220	OIL-01224
20L	OIL-01217	OIL-01221	OIL-01225
