

TRAX TO-4 OILS

Product description

Indy Trax TO-4 Oils are a range of transmission oils formulated to comply with Caterpillar TO-4 specifications. Indy Trax TO-4 Oils are high-performance heavy-duty lubricants formulated for the transmission, final drives and wet brake systems of construction, mining, agricultural and other off-road equipment operating under severe load and working conditions.

Application

- Suitable for use in heavy duty and off-highway applications requiring Caterpillar and Komatsu specifications.
- Suitable for powershift transmissions, final drive and hydraulic applications.

Features & benefits

- **Refined Engine Cleanliness**

  Blended using quality base oils and additive packages to ensure friction control, low gear wear and oxidation stability characteristics required for powershift transmissions.

  Designed to provide effective protection against gear wear, corrosion and deposit formation while maintaining stable friction characteristics in systems incorporating wet brakes and clutches.

Suitable for use for the following specifications:

- ✓ CAT TO-4 and TO-4M
- ✓ API CF
- ✓ Allison C4
- ✓ Komatsu KES 07.868.1 (2002)
- ✓ ZF TE-ML-03C
