

HYDROL HV RANGE

Product description

Indy Hydrol HV range is a group of high viscosity hydraulic oils blended from paraffinic base oils and premium additive technology. These oils are especially suited for use in any circulating hydraulic system, and has the added benefits of reduced wear and good handling of demanding repetitive heavy-duty cycles.

Application

- Suitable for use in machine tools such as the headstock of lathes, which specify the use of hydraulic oil.
- Other applications include construction, agriculture and mining. Recommended for local marine applications where temperatures vary from low to high.
- Not suitable in a system containing silver-plated components.

Features & benefits

- **Refined Additive Package**
  Formulated with advanced additives which incorporate anti-wear, anti-oxidant and corrosion inhibition functions in order to ensure that maximum protection.

  Formulated to provide excellent performance and wear protection, as well as having good low and high temperature flow properties.

Suitable for use for the following specifications:

- ✓ AFNOR NF E 48-603
- ✓ Cincinnati P68/69/70
- ✓ Denison Hydraulics HF0, HF1, HF2
- ✓ DIN 51524 Part 3
- ✓ Vickers M-2950-S
- ✓ Vickers I-286-S
